

PRESS RELEASE

Let's invent the Future!
Book the Event and meet at the 14th Forum Teratec,
June 11 and 12, 2019 at Ecole Polytechnique – Palaiseau (France)

<http://www.teratec.eu/forum/>

The Forum Teratec is the premier international meeting for all players in HPC, Simulation, Big Data and Machine Learning (AI). It is a unique place of exchange and sharing for professionals in the sector. Come and discover the innovations that will revolutionize practices in industry and in many other fields of activity. **Because tomorrow is shaping up today, let's meet next June 11 and 12 in Palaiseau.**

Bruyères-le-Châtel, April 12, 2019 – Over time, the Forum Teratec has acquired its letters of nobility and proven its legitimacy as it will be holding its 14th edition next June. On this occasion, Europe will be in the spotlight with a focus on the **EuroHPC initiative**.

Recognized for the quality of its speakers and activities, the Forum is a real federator in developing innovative technologies and uses. These will be highlighted during two days rich in content around High Performance Computing (HPC), Digital Simulation, Big Data and AI. You will attend speeches of Philippe VARIN - President of France Industrie, Jean-Yves LE GALL - President of CNES, Matthias TRAUB - BMW AG, Marc HAMILTON - NVIDIA, Mustapha EL-BOUCHOUAFI - Hexagon Manufacturing Intelligence and Thierry PELLEGRINO - DELL EMC.

This 14th edition will take place under the leadership of Daniel WERWAERDE, Teratec's new president.

Acclaimed over the years, the Forum's configuration revolves around the **Plenary Sessions, Technical and Application Workshops** and an **Exhibition** that will host more than sixty major players in industry and new technologies, as well as innovative start-ups.

The 2019 edition will welcome the creation of two Roundtables to be held during the plenary sessions, one addressing the strong theme of technology serving Healthcare, and the other that of Autonomous Systems.

The Simulation and Digital Technologies Trophies, organized in partnership with L'Usine Nouvelle and L'Usine Digitale, will be awarded for the 5th consecutive year.

For your convenience when coming to the Forum and to enjoy a shuttle service, please do let us know at the following email address: teratec@kanirp.com
