QRNG usecases @OVHcloud

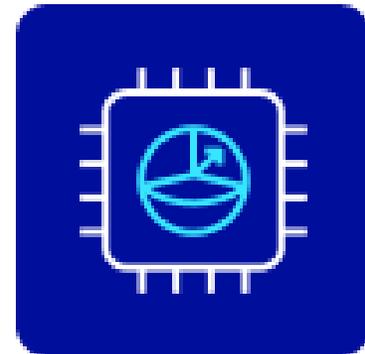

Cryptography

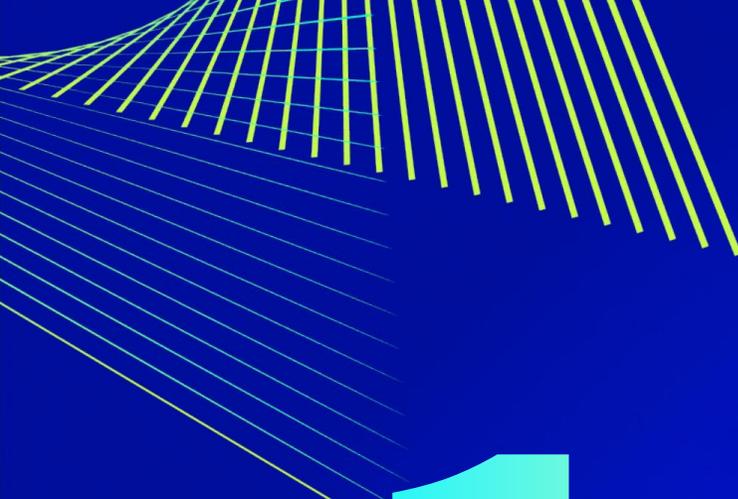

- ▶ SSL Certificates
 - ▶ Deliver SSL certificates based on quantum entropy
 - ▶ Available for Webhosting products
- ▶ Data encryption
 - ▶ Databases / Netflow
 - ▶ Object/block storage
- ▶ Entropy source
 - ▶ Randomness « as a Service »
 - ▶ Cloud integration
- ▶ Post-Quantum Cryptography (PQC)
 - ▶ Ensure quantum proof security
 - ▶ Cryptographic quantum algorithms

COMPUTER MAKERS

Emulators & QPUs

Run quantum code on high-performance emulators directly from your browser Run quantum code on real QPU directly from your browser

Explore quantum computing in total freedom with our ready-to-use notebooks in the cloud

Simulate up to 20 qubits in a few seconds, without installation or configuration constraints.

Access a preconfigured environment, compatible with the main frameworks (Qiskit, Pulser, MyQLM, Perceval, ...) and easily collaborate with your teams via a shared and secure interface

Serco in the world

UK and Europe

Serco has over 31,000 people in the UK & Europe, working across 220+ government contracts. We are committed to forming long term partnerships and supporting our national and local government customers to deliver on their mission.

Middle East

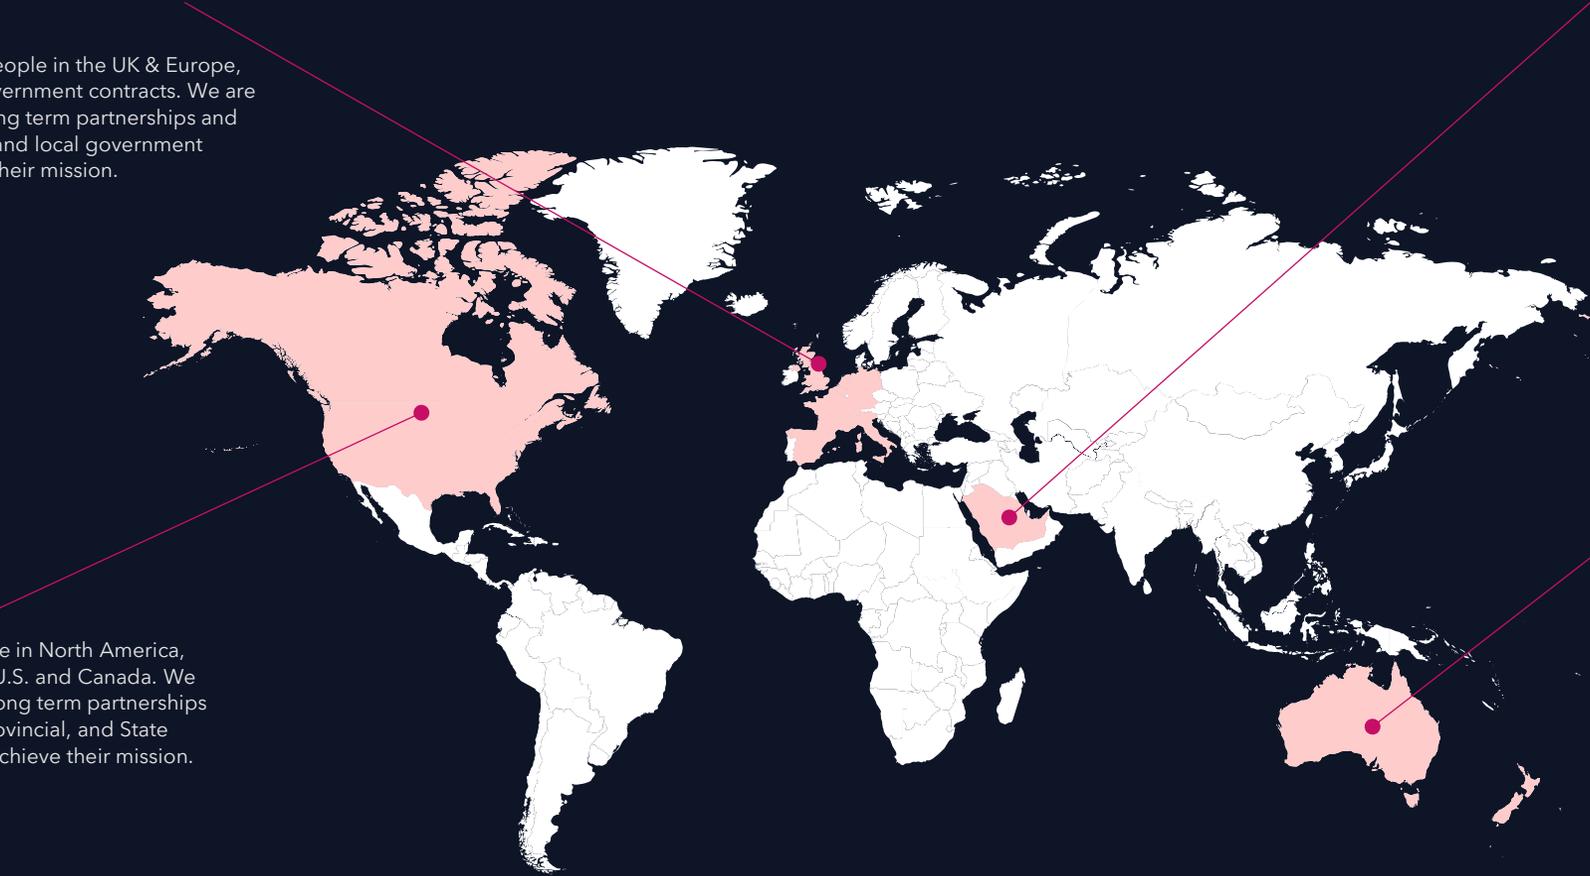

Serco has over 4,500 people in the Middle East, with operations across the United Arab Emirates, The Kingdom of Saudi Arabia, Qatar and Iraq. We are committed to forming long term partnerships and supporting our customers to deliver on their long-term visions.

North America

Serco has over 9,000 people in North America, with operations across the U.S. and Canada. We are committed to forming long term partnerships and supporting Federal, Provincial, and State government customers to achieve their mission.

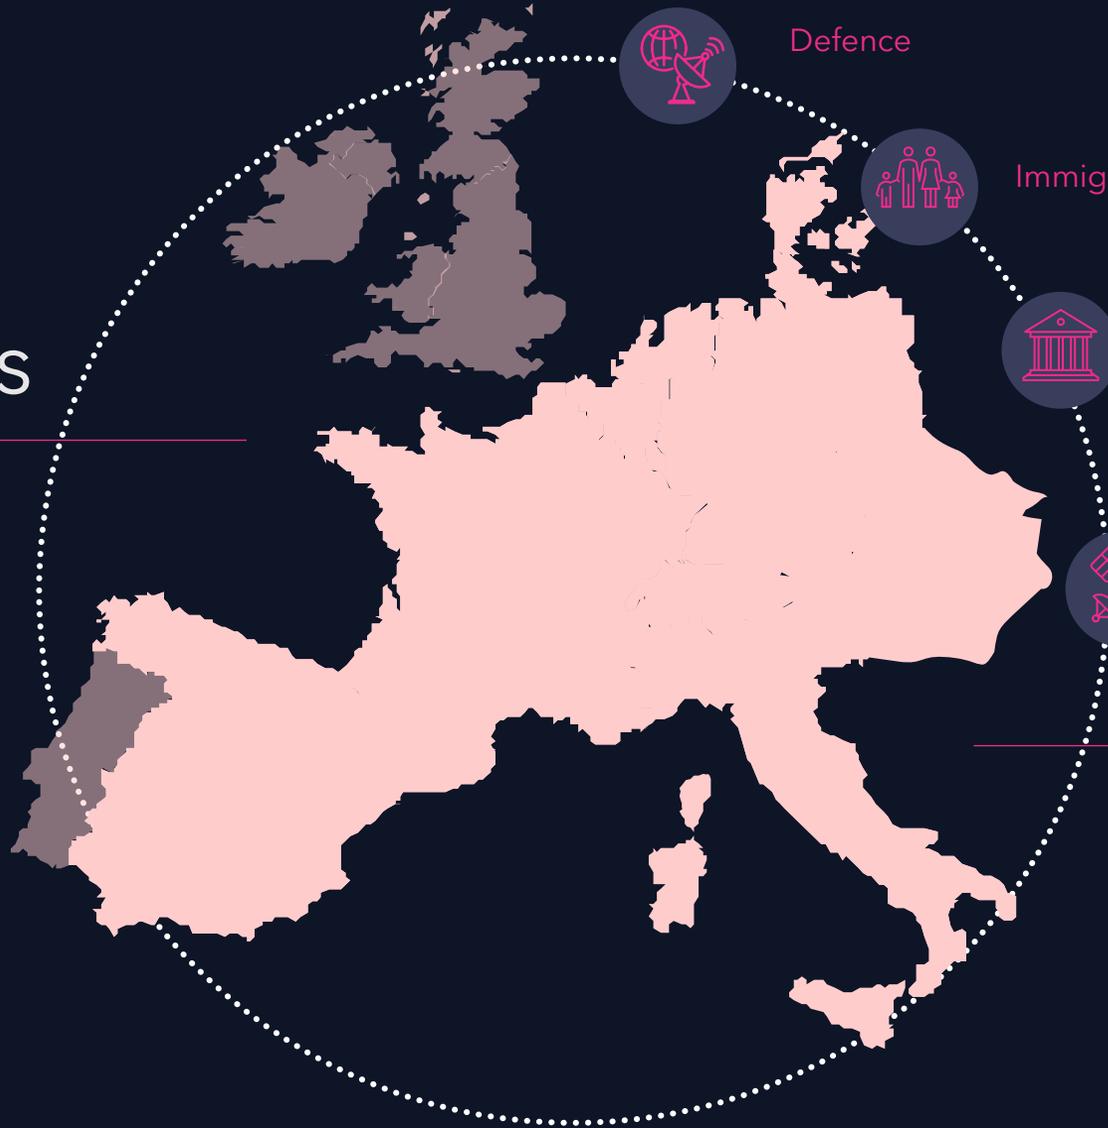

Asia Pacific

Serco has over 12,000 people in the Asia Pacific region, with operations Australia, New Zealand, and Hong Kong. We are committed to forming long term partnerships and supporting our customers to deliver on their mission.

Our Sectors and Presence in Europe

Sercos Space

Over 35 years of experience in the Space sector, providing highly specialized services for public bodies and organizations, including European Space Agency (**ESA**), European Organization for Exploitation of Meteorological Satellites (**EUMETSAT**), and National Space Agencies (**ASI**, **CNES**, **DLR**)

- **50+ Contracts**
- **750+ employees**
- **Key services:**
 - Data Management and Exploitation
 - Added Value Services
 - Satellite Operations
 - Data Quality and Validation

DESTINE SYSTEM OVERVIEW

THE POWER OF OUR ECOSYSTEM

A collaborative and comprehensive ecosystem delivering the Destination Earth initiative.

The DestinE Platform is an **ecosystem** of Services provisioned by ESA and operated by Sercio Italia and its partners.

DESTINE SYSTEM VISION

EMPOWERING A SUSTAINABLE FUTURE

Your gateway to a sustainable future

A unique
ecosystem of services
harnessing the power of
Destination Earth.
